[Living with a Special Need - The Complete Series...](#)

Most young people know someone who is living with a special need, and many of these young people have questions that deserve answers. Education about these special needs is the only way to ensure the most compassionate and understanding society, where all people are equally valuable, where each young person living with a special need is respected. This series educates young readers about a variety of special needs their peers live with every day. Each book in this set focuses on a different special need, from autism to ADHD, and includes stories about the lives of young people with these needs.

Series Details 16 volumes

Ages: 12+

Grade Level: 7+
